Hi Michelle,

Thanks for contacting AAP FactCheck.

We take [our commitment to accuracy](#) seriously, and we have updated the article to clarify the cause of the deaths and included a note to that effect.

As both conditions are related to blood clotting, we had used broad terminology as shorthand but our wording could have been more accurate.

However, I do not believe that the issue you highlighted materially affects the accuracy of the overall fact check or its verdict.

Regards,

**Peter Bodkin** | FactCheck Editor

**Your Message:**

In this alleged 'fact check'

<https://www.aap.com.au/australian-students-did-not-die-in-covid-19-vaccination-drive/>

You dont even get your info about confirmed deaths correct!

And, Im not a journo, Im just a mum!

Your job is to fact check and you have failed!

7 deaths have been confirmed by the conflicted TGA as being connected to the AZ shot, 6 from TTS and 1 from ITP!

WHAT ELSE HAVE YOU GOT WRONG?

Do not send me your shit product info!
